MySQL/MSSQL Databases

Linux/Unix Administration

Celery

Stripe Payment Integration

PyQt6 / TkInter

Bootstrap/Tailwind/ CSS

HTML

JavaScript/jQuery

Work Experience

Python Developer - SoftAge Information Technology Pvt Ltd

2018 - 2021 | India, Gurgaon

- Developed and maintained a data collection website using Django and React.
- Created a Windows application for video data collection, enhancing data processing efficiency.
- Implemented a warehouse management system, improving inventory tracking and management.
- Built a US-based website for teachers to prepare and download exam papers, integrating a payment API for subscription management.
- Provided REST APIs for backend implementation of an Android app, ensuring seamless data exchange.
- Created Dashboards for Admin, Statehead and Superusers for proper order management and tracking.

Education

Master of Computer Applications (MCA) - Jamia Hamdard University

2021 - 2023

Bachelor of Science (BS) - Jamia Millia Islamia University

Projects

Rider Tracking and Order Management System

2024 -

- Provided backend services for an Android app to facilitate data exchange and processing as well as created Dashboard for users with different Roles like Admin, Statehead and Superuser.
- Developed a web-based platform using Django (REST API) and ReactJS for tracking riders and managing orders, accessible by admins through a user-friendly interface.
- Implemented a comprehensive order management system for admins to view and update order statuses, track order history, and manage rider assignments.
- Designed RESTful APIs to seamlessly integrate the front-end ReactJS application and the Android app with the Django backend.

RegentsIQ Education Platform

2024 -

- Developed a website for teachers to create and download exam papers.
- Integrated payment gateway, designed user-friendly interfaces, and ensured secure transactions.

Warehouse Management System

2023 -

- Created a system to manage warehouse operations, including inventory tracking and order management.
- Designed database schema, developed RESTful APIs, and implemented frontend features.

Windows Application for Video Data Collection

2023 -

- Built a desktop application for video data collection and processing.
 - Developed user interface, integrated video capture functionalities, and ensured data integrity.
-

Certifications

Crash Course in Python

2023 -

Online course covering fundamental concepts of Python programming.

C++

2023 -

Course covering basics of C++ programming.
